PROFILE SUMMARY

Highly Motivated and results-oriented fresher with a strong foundation in front-end web development. I possess a comprehensive skillset encompassing .
HTML, CSS, JavaScript, React.js, and MongoDB enabling me to build full-fledged front-end web applications utilizing **React.js**.

1. **Self-driven learner**: Eager to grasp and implement new technologies for improved development capabilities.
2. **Highly adaptable**: Ready to adjust and **learn new skills** to fit the needs of the team and project.

My expertise in both **design** and **development** streamlines the workflow, potentially reducing project costs by up to **20%** and adding **value to your project.**

Highly skilled Combining frontend **Web Development** and **Web Design** expertise. Design and develop entire web applications from **Scratch**, including **Wireframing** and sketching. Combining frontend web development and web design expertise handled seamlessly, **Ensuring Project Efficiency.**

CERTIFICATE

Certified LearnMall.in ://FullStack development

Certified LearnMall.in ://Basic JAVA Programming

Certified LearnMall.in ://Microsoft Excel
